

**Question 1** Assign truth values to the following statements (and, or, not). Enter only T for true and F for false.

- $T \text{ and } F = \boxed{F}$
- $T \text{ or } F = \boxed{T}$
- $\text{Not } F = \boxed{T}$

**Question 2** Assign truth values to the following statements (If then). Enter only T for true and F for false.

- $T \rightarrow F = \boxed{F}$
- $F \rightarrow T = \boxed{T}$

**Question 3** Consider the following statements: Assign truth values to these statements ((if and only if).

- $\text{COMP 61 is a course at Tufts University} \underline{\text{or}} \text{ my hair is naturally green.}$   
 $\boxed{T} \text{ or } \boxed{F} = \boxed{T}$
- $\text{COMP 61 is a course at Tufts University} \underline{\text{and}} \text{ my hair is naturally green.}$   
 $\boxed{T} \text{ and } \boxed{F} = \boxed{F}$
- $\text{If COMP 61 is a course at Tufts University} \underline{\text{then}} \text{ my hair is } \underline{\text{not}} \text{ naturally green.}$   
 $\boxed{T} \rightarrow \boxed{T} = \boxed{T}$
- $\text{If COMP 61 is a course at Tufts University} \underline{\text{then}} \text{ my hair is naturally green.}$   
 $\boxed{T} \rightarrow \boxed{F} = \boxed{F}$
- $\text{If COMP 61 is } \underline{\text{not}} \text{ a course at Tufts University} \underline{\text{then}} \text{ my hair is naturally green.}$   
 $\boxed{F} \rightarrow \boxed{F} = \boxed{T}$
- $\text{COMP 61 is a course at Tufts University} \underline{\text{if and only if}} \text{ my hair is naturally green.}$   
 $\boxed{T} \leftrightarrow \boxed{F} = \boxed{F}$
